

Five years after the Great Language Outage, lang-laws have been repealed, but world affairs have only gotten worse. The new automation agenda has resulted in a social caste system based on IQ. Manual employment is a thing of the past, and the lowest soc-ed class, the Unskills, are forced into permanent unemployment.

In a world on the brink of civil war, a deadly insomnia pandemic threatens to kill billions. Lilith King, Interpol's most celebrated detective, is assigned to the case.

Together with a sleep specialist, Dr. Kace Westwood, Lilith must figure out who or what is behind this new threat. Could the pandemic be the result of the upskilling vagus chips being offered to the lowest soc-ed class? Or are language chips being hacked? And what of the viral conspiracy theories by the mysterious Dark Court, sweeping the globe? Lilith must work every possible angle, and quickly: she is running out of time!

While attempting to stop a vast conspiracy on an intergalactic scale, Lilith also faces shocking revelations about her origin, coming to terms with her own destiny.
